Response to Amendment

This is in response to an amendment file on July 8th, 2004. In the amendment, claims 12-14 have been amended. Claims 5-7 and 12-14 remain pending in the letter.

Allowable Subject Matter

1. Claims 5-7 and 12-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - a. Applicant's provide an inventive concept wherein a customer's terminal station is connected to a first bank system via an open network and the first bank system is connected to a second bank via and inter-network the customer having an existing bank account in the second bank system and attempting to newly open a bank account in the first bank system. Applicant's inventive concept is novel and innovative in the sense that is the first bank requesting confirmation of an existing account in the second bank and opening a new bank account base on the confirmation of the existing bank account and wherein the first bank account authenticates the customer based at the confirmation. The closet prior art Nel teaches an inventive concept of transferring funds electronically between a firsts financial institution and a second institution. However, Nel fails to teach a first bank requesting confirmation of an existing account in the second bank and opening a new bank account base on the confirmation of the existing bank account and wherein the first bank account authenticates the customer based at the confirmation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 3621

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure..

b. *Weiss et al (U.S. Patent No. 6,354,490) teach a financial transaction system for opening a single account that allows customers to access a full range of global services using variety of access point.*

c. *Hayachi Makato (JP No. 02-287767) teach a system to facilitate the opening bank account by reading data out of a card and sending the data to host computer of the bank request host computer of another bank to send individual information and opening the account with the information.*

d. *Tracy Tucker (NPL) teach a digital ID issued to customer that could be used to verify customer's identification before the bank gives access to account information.*
